

Video

- V-1 **Bicuspid Aortic Valve Repair and Lansac Ring**
Cecillia Chin (University of Pennsylvania)
- V-2 **withdrawn**
- V-3 **Redo "UFO Procedure" in Patient with Behcet's Disease**
Xiangfeng Gong (West China Hospital of Sichuan University)
- V-4 **Mitral Valve Preservation in the Hemi-Commando Procedure**
Dit Yoongtong (Lampang hospital)
- V-5 **Homograft aortic root replacement for prosthetic graft infection**
Satoshi Kainuma (National Cerebral and Cardiovascular Center)
- V-6 **Advances in The Bono-Bentall procedure . The simplified and modified method**
Ricardo Boix Garibo (Northwestern Medicine. Bluhm Cardiovascular Institute. Cardiac Surgery. McHenry. Illinois. USA)
- V-7 **Total arch replacement and aortic branch reconstruction using a hande-made X-graft**
Evgeny Rosseykin (Federal Center For Cardiovascular Surgery (Khabarovsk))
- V-8 **A modified "in situ" arch replacement technique with frozen elephant trunk device for acute type A aortic dissection**
Yunxing Xue (Nanjing drum tower hospital)
- V-9 **Khabarovsk Arch Technology**
Evgeny Rosseykin (Federal Center For Cardiovascular Surgery (Khabarovsk))
- V-10 **Novel Vascular Connector to Facilitate Arch Vessel Anastomosis During Open Arch Reconstruction**
John Kelly (Division of Cardiovascular Surgery, University of Pennsylvania, Philadelphia, PA, USA)
- V-11 **Proximal descending thoracic aortic replacement using donor aorta in conjunction with bilateral lung transplantation for adult patent ductus arteriosus**
Kentaro Yuda (Department of Cardiovascular surgery, Tohoku University hospital)

V-12

Acute Stanford type B aortic dissection with rapid expansion associated with aortic coarctation and Turner syndrome: a case report

Shuhei Sakaguchi (Department of Cardiovascular Surgery, Faculty of Medicine, University of Miyazaki, Miyazaki, Japan)

V-13

Image guided cannulation of dissected aorta in acute type A aortic dissection repair

Yen-Yang Chen (Division of cardiovascular surgery, Department of Surgery, Shin Kong Wu Ho-Su Memorial Hospital, Taipei, Taiwan)

V-14

How I do it: TAR+FET for Chronic Type A Aortic Dissection

Dmitry Khvan (E.Meshalkin National Medical Research Center)

V-15

Surgery for patients with mediastinitis and graft/device infection after multiple aortic operations

Naoki Washiyama (First Department of Surgery, Hamamatsu University School of Medicine)

V-16

Extra Anatomical bypass of the ascending-descending aorta through posterior pericardiotomy with stent graft removal in a patient with TEVAR infection

Eduard Charchyan (Petrovsky National Research Centre of Surgery)
